**REQUEST FOR RECONSIDERATION OF REQUIREMENT  
FOR SEQUENCE LISTING**

Commissioner for Patents

Sir:

Reconsideration is respectfully requested for the requirement that a sequence listing be submitted.

A sequence listing is required only when there appears in the application an unbranched sequence of four or more amino acids or an unbranched sequence of ten or more nucleotides.

We do not find either of these in the present application. But if we are mistaken, kindly point out where they occur.

Respectfully submitted,
